* Registration Counties consist of groups of Registration Districts, which are generally co-extensive with Poor Law Unions, many of which Unions are situated in more than one Administrative County. The boundaries of Registration Counties, therefore, differ more or less from the boundaries of Administrative Counties. For differences in detail, see Table 13.

TABLE 2.—AREA, HOUSES and POPULATION of REGISTRATION DISTRICTS and SUB-DISTRICTS and of their constituent CIVIL PARISHES.

N.B.—In this Table the names of Registration Districts are printed in large capitals, those of Registration Sub-Districts in smaller capitals, and those of Civil Parishes in ordinary type. The figures relating to Districts and Sub-Districts are printed opposite their respective names. Where a Sub-District consists of part of a Civil Parish, the particulars of which are the same as those for the Sub-District, the figures are not repeated, but the name of the Parish is given in parenthesis under that of the Sub-District, and the figures for the entire Parish are given at the foot of the page.

GENERAL NOTES.—The Registration Districts of this Division are co-extensive with Poor Law Unions, except Hereford, which comprises the two Unions of Hereford and Dore; and Wolverhampton, which comprises the two Unions of Wolverhampton and Seisdon.

Where the name of the Registration County in which a Parish is situated differs from that of the Administrative County to which it belongs, the name of the latter is added in *italics*. For the purposes of this Table a County Borough is held to form part of that Administrative County within which its constituent Civil Parishes or parts of Parishes are locally situated. For lists of Parishes within each Administrative County and County Borough, see Volume I.

(W) or (W.S.) denotes that a Workhouse or Workhouse School *belonging to the District* is situated within the limits of the parish; (w) or (w.s.) that one of these institutions *not belonging to the District* is situated therein. A statement of the number of persons enumerated in Public Institutions in each district will be found in Table 8.

The places named in foot-notes as being included in Civil Parishes are Hamlets, Villages, &c., or localities having no defined boundaries.

Under the Divided Parishes Acts of 1876, 1879 and 1882, numerous detached parts of Civil Parishes have been amalgamated with other Civil Parishes; for details of these changes, see Table 14.

Revised AREAS of Parishes and parts of Parishes have been supplied by the Ordnance Survey Department.

The Areas marked thus (w) either include water, or relate to Parishes to which a portion of the tidal water or foreshore of contiguous rivers or creeks has been allotted. Such tidal water or foreshore is, however, not included in the areas. For details, see Table 11.

Persons who, on the night of 5th April, 1891, were on board barges or boats employed in inland navigation, and those who were on board sea-going and coasting vessels in harbours, rivers and creeks, are included among the general population. For details, see Table 9.

* By Local Government Board Order, No. P. 786 (confirmed by Local Government Board's Provisional Orders Confirmation, No. 13, Act, 1891), which came into operation on the 9th November 1891, the area of this Urban Sanitary District was extended to include the Hamlet of Little Bromwich and the Urban Sanitary Districts of Balsall Heath, Harborne and Saltley.

^b Bishops Castle became an Urban Sanitary District by its incorporation as a Municipal Borough on 24th June 1885.

^c Formerly a detached part of the Civil Parish of Bisley.

^d The part of this Civil Parish not included in the Urban Sanitary District contains no houses or population and was formerly a detached part of the Civil Parish of Stroud.

^e Some doubt appears to exist as to the legal boundary of the Municipal Borough of Bridgnorth. The figures here given are for the area recognised by the Town Clerk. The Ordnance Survey Department, however, states that the Borough is co-extensive with the Civil Parishes of St. Leonard and St. Mary Magdalen, and that the legal area of the Borough is thus only 1,168 acres, while the area of the Rural Sanitary District is 70,786.

^a The remainder of the Urban Sanitary District of Bristol is in Division V.

^b This Urban Sanitary District includes the whole of Bulkington Civil Parish except a formerly detached part of Wolvey Civil Parish which was added to Bulkington under the provisions of the Divided Parishes Act, 1882. The Ordnance Survey Department is unable to compute the area of this formerly detached part of Wolvey Civil Parish, but according to a statement of the Overseers of Bulkington Civil Parish its area is "about 60 acres," which have been deducted from the area of the entire Parish in making up that of the Urban Sanitary District.

^c The area of this Urban Sanitary District was extended by Local Government Board Order, No. P. 813 (confirmed by Local Government Board's Provisional Orders Confirmation, No. 15, Act, 1891), which came into operation on the 9th November 1891.

^a The area of the Urban Sanitary District of Newport was extended by an Order of the Salop County Council, confirmed by Local Government Board Order, No. 28,404, dated 9th November 1892, which came into operation on the 25th March, 1893. The houses and population within the extended district, at the date of the Census, were as follow:—

^b All the detached part of Chilvers Coton Urban Sanitary District called "Sinnie Fields" was transferred to this Urban Sanitary District by an Order of the Warwickshire County Council, which was confirmed by Local Government Board Order, No. 27,394, dated 10th September 1891. By an Order of the Warwickshire County Council, which was confirmed by Local Government Board Order, No. 29,203, dated 30th January 1893, the area of the Urban Sanitary District of Nuneaton was extended to include the whole of the previously existing Urban Sanitary District of Chilvers Coton, and its name was changed to Nuneaton and Chilvers Coton.

^c The area of this Urban Sanitary District appears to include a small portion of Warley Civil Parish as now constituted, but as the Ordnance Survey Department has been unable to obtain entirely satisfactory information on this point, the area given above for the Urban Sanitary District is that of the Civil Parish of the same name.

^a By Local Government Board Order, No. P. 695 (confirmed by Local Government Board's Provisional Orders Confirmation, No. 11, Act, 1890), which came into operation on the 9th November 1890, the Urban Sanitary Districts of Lillington and Milverton were dissolved, a part of their area being added to the Urban Sanitary District of Royal Leamington Spa.

^b The name of the Urban Sanitary District of Upper Sedgley was changed to Sedgley by Local Government Board Order, No. 21,378, dated 18th April 1887.

^c By the operation of Local Government Board Order, No. 17,487, which took effect on 25th March 1885, the boundaries of the Civil Parishes of St. Julian (with which was incorporated the part of the Civil Parish of Meole Brace within the Borough), St. Mary (to which was added the part of the Civil Parish of St. Alkmund within the Borough), and St. Chad were so altered as to be wholly within the Borough. The area of the Municipal Borough includes a formerly detached part (2 acres) of Meole Brace Civil Parish which by the above Order appears to have been added to St. Julian Civil Parish; the Ordnance Survey Department, however, expresses the opinion that these two acres were not affected by the Order referred to, and that they still remain part of Meole Brace Civil Parish.

^d All the part of the Civil Parish of Hopton and Coton included in the Municipal Borough of Stafford was amalgamated with this Parish by Local Government Board Order, No. 17,889, which took effect on the 25th March 1886.

* Registration Counties consist of groups of Registration Districts, which are generally co-extensive with Poor Law Unions. As many of the Unions are situated in more than one Administrative County, the boundaries of Registration Counties usually differ more or less from those of Administrative Counties. For differences in detail, see Table 13.

TABLE 2.—AREA, HOUSES and POPULATION of REGISTRATION DISTRICTS and SUB-DISTRICTS, and of their constituent CIVIL PARISHES.

N.B.—In this Table the names of Registration Districts are printed in large capitals, those of Registration Sub-Districts in smaller capitals, and those of Civil Parishes in ordinary type. The figures relating to districts and sub-districts are printed opposite their respective names. Where a sub-district consists of part of a civil parish, the particulars of which are the same as those of the sub-district, the figures are not repeated, but the name of the parish is given in parenthesis under that of the sub-district, and the figures for the entire parish are given at the foot of the page.

GENERAL NOTES.—The Registration Districts of this Division are co-extensive with Poor Law Unions, except Caistor, which comprises the two Unions of Grimsby and Caistor, and Hayfield, which comprises the two Unions of Glossop and Hayfield.

Where the name of the Registration County in which a parish is situated differs from that of the Administrative County to which it belongs, the name of the latter is added in *italics*. For the purposes of this Table, however, the three Administrative Counties of the Parts of Holland, the Parts of Kesteven, and the Parts of Lindsey are treated as one County and designated Lincolnshire; and a County Borough is held to form part of that Administrative County within which its constituent civil parishes or parts of parishes are locally situated. For list of parishes within each Administrative County and County Borough, see Volume I.

(W) or (WS) denotes that a Workhouse or Workhouse School *belonging to the District* is situated within the limits of the parish; (w) or (ws) that one of these institutions *not belonging to the District* is situated therein. A statement of the number of persons enumerated in Public Institutions in each district will be found in Table 8.

The places named in foot-notes as being included in civil parishes are hamlets, villages, &c., or localities having no defined boundaries.

Under the Divided Parishes Acts of 1876, 1879, and 1882 numerous detached parts of civil parishes have been amalgamated with other civil parishes; for details of these changes, see Table 14.

Revised AREAS of civil parishes and parts of parishes have been supplied by the Ordnance Survey Department.

The areas marked thus (w) either include water, or relate to parishes to which a portion of the tidal water or foreshore of contiguous rivers or creeks has been allotted. Such tidal water or foreshore is, however, not included in the areas. For details, see Table 11.

Persons who, on the night of 5th April, 1891, were on board barges or boats employed in inland navigation, and those who were on board sea-going and coasting vessels in harbours, rivers, and creeks, are included among the general population. For details, see Table 9.

* See Table of Changes effected by the Divided Parishes Acts, page 754.

* Including Brockhurst, and part of Street Ashton.

^b Including Newbould Revel, and part of Street Ashton.

† A considerable proportion of the population of this parish was enumerated in an Institution. See Table 8.

* The civil parishes of New Found Pool and Freak's Ground, and parts of the parishes of Aylestone, Aylestone, and Braunstone having been transferred by the Leicester Extension Act of 1891 to the Union of Leicester, now form part of West Leicester sub-district (409.2); the remainder of Knighton being divided between Oadby and Lubbesthorpe in this district, and the remainder of Aylestone being also added to Lubbesthorpe.

^b Including a former part of Knighton civil parish added to Oadby by the Leicester Extension Act, 1891.

* The decrease in the population of Glen Parva is mainly attributed to the diminution of the number in the barracks, viz., from 579 in 1881 to 334 in 1891.

^d Including Littlethorpe.

^e Including former parts of Knighton and Aylestone civil parishes added to Lubbesthorpe by the Leicester Extension Act, 1891.

^f Part of the civil parish of Braunstone has been transferred to that of St. Mary, Leicester, by the Leicester Extension Act, 1891.

^a Including Aysworth and a detached part surrounded by Greasley, Ilkeston, and Cossall.^b A detached part of West Bridgford civil parish having been transferred by Local Government Board Order No. 23,857 (which came into operation on 25th March 1889), to Edwinton civil parish in the Bingham Union, now forms part of Bingham Registration District (434).^c The large increase in the population of Wilford is mainly attributed to the establishment of Clifton Colliery.^d The sub-district of Nottingham South-west consists of the former sub-districts of Castle, Lenton, and Park; the sub-district of Nottingham North-west of the former sub-district of Hyson Green, Radford, and Sherwood; the sub-district of Nottingham North-east of the former sub-districts of Byron and St. Ann; and the sub-district of Nottingham South-east of the former sub-districts of Exchange, St. Mary, and Sneinton.

^a Part of this Parish was transferred in 1892 to the Urban Sanitary District of Chesterfield.

^b Formerly called Beard, Thornsett, Ollersett, and Whittle.

^c Including a formerly detached part of Holdingham Civil Parish.

^d The population in 1891 of this part of Carlton Civil Parish was enumerated in the new wing of the Borough Lunatic Asylum.

^e See note a, page 714.

^f Part of the Civil Parish of Lenton consisting of 27 acres of the River Trent and its Northern bank, and containing neither house nor population, lies outside the boundary of the Borough; the area is included, however, in the above figures for Nottingham Urban Sanitary District, as there is no Rural Sanitary District to which it can be assigned, and hence such figures differ from those given as the area of the County Borough of Nottingham in Volume I.

^g This part of the Civil Parish of North Kyme, containing neither house nor population, was formerly a detached part of Ruskington Civil Parish.

^h The remainder of Ruskington Civil Parish consists of a formerly detached part of Anwick Civil Parish added thereto and situated in Sleaford Rural Sanitary District.

* In consequence of the Leicester Extension Act, which came into operation on 1st January 1892, certain alterations were made in the boundaries of these Registration districts which are taken into account in the statement of population in Table 2; for better comparison, however, with the figures of Marriages, Births, and Deaths, the populations in this Table relate to the districts as constituted before the alterations.

TABLE 12.—INCREASE or DECREASE of POPULATION, 1881-91, compared with EXCESS of BIRTHS over DEATHS; AGGREGATE NUMBER of MARRIAGES, BIRTHS, and DEATHS registered in each REGISTRATION DISTRICT during the Ten Years 1881-90—*continued*.

* Registration Counties consist of groups of Registration Districts, which are generally co-extensive with Poor Law Unions. As many of the Unions are situated in more than one Administrative County, the boundaries of Registration Counties usually differ more or less from those of Administrative Counties. For differences in detail, see Table 13.

TABLE 2.—AREA, HOUSES and POPULATION of REGISTRATION DISTRICTS and SUB-DISTRICTS, and of their constituent CIVIL PARISHES.

N.B.—In this Table the names of Registration Districts are printed in large capitals, those of Registration Sub-Districts in smaller capitals, and those of Civil Parishes in ordinary type. The figures relating to districts and sub-districts are printed opposite their respective names. Where a sub-district consists of *part* of a civil parish, the particulars of which are the same as those of the sub-district, the figures are not repeated, but the name of the parish is given in parenthesis under that of the sub-district, and the figures for the entire parish are given at the foot of the page.

GENERAL NOTES.—The Registration Districts of this Division are co-extensive with Poor Law Unions except Chester, which comprises the three Unions of Chester, Hawarden, and Tarvin.

Where the name of the Registration County in which a Parish is situated differs from that of the Administrative County to which it belongs, the name of the latter is added in *italics*. For the purposes of this Table a County Borough is held to form part of that Administrative County within which its constituent Civil Parishes or parts of Parishes are locally situated. For lists of Parishes within each Administrative County and County Borough see Volume I.

(W) or (WS) denotes that a Workhouse or Workhouse School *belonging to the District* is situated within the limits of the Parish; (w) or (ws) that one of these institutions *not belonging to the District* is situated therein. A statement of the number of persons enumerated in Public Institutions in each district will be found in Table 8.

The places named in foot-notes as being included in Civil Parishes are Hamlets, Villages, &c., or localities having no defined boundaries. Under the Divided Parishes Acts of 1876, 1879, and 1882, numerous detached parts of Civil Parishes have been amalgamated with other Civil Parishes. For details of these changes, see Table 14.

The AREAS of all Civil Parishes in Cheshire having been previously supplied by the Ordnance Survey Department, only the areas of such Parishes as have been altered since 1881 have been revised. Revised areas of inland Civil Parishes in Lancashire have also been furnished, but for Parishes including tidal water or foreshore the re-survey had not been completed when this Report was sent to press.

The areas marked thus (w) either include water or relate to parishes to which a portion of the tidal water or foreshore of contiguous rivers or creeks has been allotted. Such tidal water or foreshore is, however, not included in the areas. For details, see Table 11.

Persons who, on the night of 5th April 1891, were on board barges or boats employed in inland navigation, and those who were on board sea-going and coasting vessels in harbours, rivers, and creeks, are included among the general population. For details, see Table 9.

^a Including Barns Fold, Hawk Green, Middlewood, and Windlehurst.

^b Including Bredbury Green, Castle Hill, Hatherlow, and Woodley.

^c Including Knott Fold and part of Gee Cross.

^d Including Compstall and part of Gee Cross. The decrease in the population

of this parish is attributed to the fact that five hat manufactories and one large cotton mill which were working in 1881 were closed in 1891.

^e Including Sandfold and Stimes.

^f Including Broomfield, Grundy Hill, Heaton Mersey, and Shawfold. Part of this civil parish is included in the County Borough of Stockport.

* On 1st July 1892 certain civil parishes were transferred from the Registration District of Nantwich to that of Chester, and in the statement of population in Table 2 this alteration is taken into account; for better comparison, however, with the figures of Marriages, Births, and Deaths, the populations in this Table relate to the districts as constituted before the alteration.

* The Registration Counties consist of groups of Registration Districts, which are generally co-extensive with Poor Law Unions. As many of the Unions are situated in more than one Administrative County, the boundaries of Registration Counties differ more or less from those of Administrative Counties. For differences in detail, see Table 13.

TABLE 2.—AREA, HOUSES and POPULATION of REGISTRATION DISTRICTS and SUB-DISTRICTS and of their constituent CIVIL PARISHES.

N.B. —In this Table the names of Registration Districts are printed in large capitals, those of Registration Sub-Districts in smaller capitals, and those of Civil Parishes in ordinary type. The figures relating to districts and sub-districts are printed opposite their respective names. Where a sub-district consists of part of a civil parish, the particulars of which are the same as those of the sub-district, the figures are not repeated, but the name of the parish is given in parenthesis under that of the sub-district, and the figures for the entire parish are given at the foot of the page.

GENERAL NOTES.—The Registration Districts of this Division are co-extensive with Poor Law Unions, except Wortley, which comprises the two Unions of Penistone and Wortley : and Helmsley, which comprises the two Unions of Helmsley and Kirkby Moorside.

Where the name of the Registration County in which a parish is situated differs from that of the Administrative County to which it belongs, the name of the latter is added in *italics*. For the purposes of this Table, a County Borough is held to form part of that Administrative County within which its constituent Civil Parishes or parts of Parishes are locally situated. For lists of Parishes within each Administrative County and County Borough, see Volume I.

(W) or (WS) denotes that a Workhouse or Workhouse School *belonging to the District* is situated within the limits of the parish; (w) or (ws) that one of these Institutions *not belonging to the District* is situated therein. A statement of the number of persons in Public Institutions in each district will be found in Table 8.

The places named in foot-notes as being included in civil parishes are hamlets, villages, &c., or localities having no defined boundaries.

Under the Divided Parishes Acts of 1876, 1879, and 1882, numerous detached parts of civil parishes have been amalgamated with other civil parishes; for details of these changes, see Table 14.

Revised AREAS have been supplied by the Ordnance Survey Department for all civil parishes in the East Riding. As revised areas were previously supplied for parishes in the North and West Ridings, revised areas are now given for only those parishes which have undergone alterations since 1881; a further revision of areas in these Ridings is in progress.

The areas marked thus (w) either include water, or relate to parishes to which a portion of the tidal water or foreshore of contiguous rivers or creeks has been allotted. Such tidal water or foreshore is, however, not included in the areas. For details, see Table 11.

Persons who, on the night of 5th April, 1891, were on board barges or boats employed in inland navigation, and those who were on board sea-going and coasting vessels in harbours, rivers, and creeks, are included among the general population. For details see Table 9.

^a By the York Improvement and Extension Act, which came into operation on 7th August 1884, the County Borough of York was extended.

^b Under the provisions of the Divided Parishes Acts changes have been effected in the boundaries of these Civil Parishes by transferences of detached parts.

^c York Castle, although locally situated within the Municipal and County Borough, is not under the jurisdiction of the City Authorities; it is therefore shown separately.

TABLE 13.—DIFFERENCES between the REGISTRATION COUNTIES and the ADMINISTRATIVE COUNTIES of the SAME NAMES.

NOTE.—In Table 2, the several Civil Parishes or parts of parishes which are included within the County Borough and City of York are treated, as explained in a note at the foot of page 863, as being in the Administrative Counties of the East, North, and West Ridings according to their local situation. In this Table, however, dealing with the relation between the Registration Counties and the true Administrative Counties (*i.e.*, exclusive of County Boroughs) the parishes or parts of parishes alluded to, being all situated in the Registration East Riding, are deducted therefrom as constituting the County Borough of York, and are not brought into relation with the West and North Ridings in any way.

* Registration Counties consist of groups of Registration Districts, which are generally co-extensive with Poor Law Unions, many of which Unions are situated in more than one Administrative County. The boundaries of Registration Counties, therefore, differ more or less from the boundaries of Administrative Counties. For differences in detail, see Table 13.

TABLE 2.—AREA, HOUSES and POPULATION of REGISTRATION DISTRICTS and SUB-DISTRICTS and of their constituent CIVIL PARISHES.

N.B.—In this Table the names of Registration Districts are printed in large capitals, those of Registration Sub-Districts in smaller capitals, and those of Civil Parishes in ordinary type. The figures relating to Districts and Sub-Districts are printed opposite their respective names. Where a Sub-District consists of part of a Civil Parish, the particulars of which are the same as those for the Sub-District, the figures are not repeated, but the name of the Parish is given in parenthesis under that of the Sub-District, and the figures for the entire Parish are given at the foot of the page.

GENERAL NOTES.—The Registration Districts of this Division are co-extensive with Poor Law Unions, except Stockton, which comprises the two Unions of Stockton and Sedgefield.

Where the name of a Registration County in which a Parish is situated differs from that of the Administrative County to which it belongs, the name of the latter is added in *italics*. For the purposes of this Table a County Borough is held to form part of that Administrative County within which its constituent Civil Parishes or parts of Parishes are locally situated. For lists of Parishes within each Administrative County and County Borough, see Volume I.

(W) or (W.S.) denotes that a Workhouse or Workhouse School *belonging to the District* is situated within the limits of the Parish; (*in*) or (*in s.*) that one of these institutions *not belonging to the District* is situated therein. A statement of the number of persons enumerated in Public Institutions in each district will be found in Table 8.

The places named in foot-notes as being included in Civil Parishes are Hamlets, Villages, &c., or localities having no defined boundaries.

Under the Divided Parishes Acts of 1876, 1879 and 1882 numerous detached parts of Civil Parishes have been amalgamated with other Civil Parishes; for details of these changes, see Table 14.

Revised AREAS of Parishes and parts of Parishes have been supplied by the Ordnance Survey Department.

The areas marked thus (w) either include water, or relate to Parishes to which a portion of the tidal water or foreshore of contiguous rivers or creeks has been allotted. Such tidal water or foreshore is, however, not included in the areas. For details, see Table 11.

Persons who, on the night of 5th April, 1891, were on board barges or boats employed in inland navigation, and those who were on board sea-going and coasting vessels in harbours, rivers and creeks, are included among the general population; for details, see Table 9.

* See Table of Changes effected by the Divided Parishes Acts, page 1051.

^a The area of this Urban Sanitary District was extended, by Local Government Board Order, No. P. 84, confirmed by Act 46 & 47 Vict. c. cxxiv. of the 25th August 1883, to include the Urban Sanitary District of Seaton Carew.

^b Comprising formerly detached parts of the Civil Parish of Whickham.

^c The parts of this Civil Parish not included in the Urban Sanitary District of Whickham comprise four formerly detached parts of Lamesley Civil Parish (about 3 acres, without houses or population in 1891) which were added to Whickham Civil Parish under the provisions of the Divided Parishes Act, 1882, and thus became the Rural Sanitary District of Gateshead, as the remainder of Gateshead Union is situated within Urban Sanitary Districts. This area is included in the rural area of the Registration County of Durham in Table 3.

Registration Counties consist of groups of Registration Districts, which are generally co-extensive with Poor Law Unions. As many of the Unions are situated in more than one Administrative County, the boundaries of Registration Counties usually differ more or less from those of Administrative Counties. For differences in detail, see Table 13.

TABLE 2.—AREA, HOUSES and POPULATION of REGISTRATION DISTRICTS and SUB-DISTRICTS and of their constituent CIVIL PARISHES.

N.B.—In this Table the names of Registration Districts are printed in large capitals, those of Registration Sub-Districts in smaller capitals, and those of Civil Parishes in ordinary type. The figures relating to districts and sub-districts are printed opposite their respective names. Where a sub-district consists of part of a civil parish, the particulars of which are the same as those of the sub-district, the figures are not repeated, but the name of the parish is given in parenthesis under that of the sub-district, and the figures for the entire parish are given at the foot of the page.

GENERAL NOTES.—All the Registration Districts of this Division are co-extensive with Poor Law Unions. Where the name of the Registration County in which a parish is situated differs from that of the Administrative County to which it belongs, the name of the latter is added in *italics*. For the purposes of this Table a County Borough is held to form part of that Administrative County within which its constituent civil parishes or parts of parishes are locally situated. For lists of parishes within each Administrative County and County Borough, see Volume I.

(W) or (WS) denotes that a Workhouse or Workhouse School *belonging to the District* is situated within the limits of the parish; (w) or (ws) denotes that one of these Institutions *not belonging to the District* is situated therein. A statement of the number of persons in Public Institutions in each district will be found in Table 8.

The places named in foot-notes as being included in civil parishes are hamlets, villages, &c., or localities having no defined boundaries. Under the Divided Parishes Acts of 1876, 1879 and 1882, numerous detached parts of civil parishes have been amalgamated with other civil parishes. For details of these changes, see Table 14.

Revised AREAS of parishes have been supplied by the Ordnance Survey Department. The areas of parishes in the counties of Denbigh, Flint, and Glamorgan having, however, been previously supplied, revised areas are only furnished for parishes in these counties where their constitution has undergone change since 1881.

The areas marked thus (w) either include water, or relate to parishes to which a portion of the tidal water or foreshore of contiguous rivers or creeks has been allotted. Such tidal water or foreshore is, however, not included in the areas. For details, see Table 11.

Persons who, on the night of 5th April, 1891, were on board barges or boats employed in inland navigation, and those who were on board sailing and coasting vessels in harbours, rivers, and creeks, are included among the general population. For details, see Table 9.

* See note a on next page.

^a Including formerly detached parts of the Civil Parishes of Isayndre and Lower Vainor.

^b This Urban Sanitary District was extended on its incorporation as a Municipal Borough on 19th July 1883.

^c This Urban Sanitary District was created by Local Government Board Order No. 23,015, dated 15th May 1888. The great increase in the population is mainly attributed to the construction of the Barry Dock and Railway.

^d The whole of the Civil Parish of Llanfaes (which includes a formerly detached part of the Civil Parish of Penmon) is now situated in this Urban Sanitary District; a formerly detached part of the Civil Parish, included in the Rural Sanitary District, having been transferred to the Civil Parish of Llanggoed.

^e Including a formerly detached part of the Civil Parish of Llanfihangel Tyn Sylwy.

^f This Urban Sanitary District was constituted by an Order of the Monmouthshire County Council, confirmed by Local Government Board Order No. 26,933, dated 29th May 1891.

^g By Local Government Board Order No. P. 341, dated 6th May 1885, this Urban Sanitary District was extended to include part of the Civil Parish of Aberystwith.

^h The Municipal Borough of Brecknock is stated by the Town Clerk not to include the Civil Parishes of Castle Inn and Christ's College, which are, however, comprised in the Urban Sanitary District.

* By Local Government Board Order No. P. 342, dated 6th May 1885, this Urban Sanitary District was extended to include part of the Civil Parish of Aberystroth.

^b The area of Cardiff County Borough was given in Volume I. as 6,064 acres, including seven acres of Rumney Civil Parish (without houses or population) which had been transferred thereto from Roath Civil Parish under the provisions of the Divided Parishes Acts. From information received from the Town Clerk subsequently to the publication of Volume I. it appears that this formerly detached part of Roath, now a part of Rumney, was never included in the County Borough. The part of the existing Civil Parish of Roath excluded from the Borough consists of a formerly detached part of Rumney Civil Parish.

^c This Civil Parish consists of the Municipal parts of the former Civil Parishes of Leekwith and Llandaff.

^d The remainder of the Civil Parish of St. Peter consists of a formerly detached part of the Civil Parish of Newchurch included in the Rural Sanitary District. The figures given for the Municipal Borough of Carmarthen in Volume I. differ slightly from those given above, information respecting the precise boundaries of the Borough having been received too late for correction of the figures published therein.
